Think3 announces alliance with EniT Solutions for its PLM suite of products in India.

Bangalore- Think3 has announced an alliance with EniT Solutions Pvt. Ltd, an Engineering and IT Services company located in Bangalore, India, towards implementation and customization of think3's PLM suite of products among its customers in the domestic market.

Girish Jois Founder and Managing Director of EniT Group says:“EniT is excited to work with Think3 as implementation, customization partners, we share the vision of think3 in helping manufacturing companies to realize the value and Return on investment by implementing Think3 PLM product suite”.

EniT Solutions Pvt. Ltd, with Head Office in Munchen Germany, is experienced in the implementation field with a qualified and technically skilled staff to handle the integrities of post sales activity during the process of PLM implementation.

“This is a strategic step for EniT in PLM consultancy services vertical. We will apply our deep rooted engineering expertise in Aerospace, Automotive and manufacturing domains to think3 PLM product suite and help realize customers full potential of integrating product development and innovation management environment,” he added.

“We are very pleased about this partnership agreement with EniT. Their leading position in the region will offer to our customers a winning position, combining the wide range of value added consulting services of EniT with think3 best of breed PPD (product development process) solutions. Also this agreement will offer both EniT and think3 the opportunity to grow faster and better serve customers leveraging on each other's values and strengths” states Silvano Joly VicePresident worldwide Marketing at think3.

“think3's TD PLM (the Task Driven PLM extended platform), a Web Based Application is a very innovative tool which offers excellent features to its customers. A total customer-driven solution, very well integrated with both CAD & Desktop applications, reduces time to market and Errors. Our customers CAN go live within 6 months, with THE HELP OF OUR on line support and training. With this strategic alliance with EniT we plan to offer our customers the complete PLM solutions,” he added.

EniT Group comprises its presence in European and Asian market working for Airbus and Tier-I suppliers as local partners in providing solutions in the areas of Structural & composite Design, Finite element analysis and Product Lifecycle Management (PLM implementation, customization and migration). EniT has been successful because of its creative idea of bridging east and west work culture and providing its customers the advantage of combined functional and technical expertise across industry verticals with a strong hold on product design and development.
